

Palm Reading Cheat Sheet

KEEP IT BESIDE YOU WHILE READING

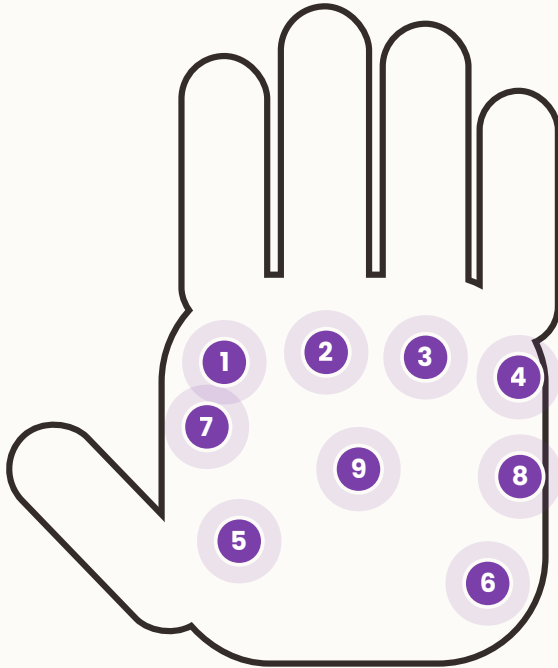

Everything you need for a 15-minute reading on one sheet. Read in this order every time: **shape** → **mounts** → **major lines** → **minor lines and marks**. Left hand is what you were born with; the hand you write with is the life you have made.

The four hand types

Type	Palm	Fingers	Nature	Suits
Earth	Square	Short	Practical, loyal, stubborn	Business, land, technical work
Air	Square	Long	Thinker, talker, restless	Teaching, media, sales, IT
Fire	Rectangular	Short	Ambitious, impatient, leader	Founding, sales, sport, defence
Water	Rectangular	Long	Sensitive, creative, intuitive	Art, design, counselling, healing

Marks — what they mean wherever you find them

Mark	Meaning	Mark	Meaning
Square	Protection — always good	Cross	Obstacle (good on Jupiter)
Star	Sudden powerful event	Island	A weakened period
Triangle	Talent and skill	Grille	Scattered, wasted energy
Trident	Great success — rare	Chain	A long difficult stretch

Three rules that keep a reading honest

- ☐ Never read one sign alone — a weak sign must repeat two or three times before it counts.
- ☐ Never predict death, serious illness, divorce or disaster. Say "a demanding period", never "you will".
- ☐ Never end on a problem. End on one thing they can actually do.
