How to read your result

Your result	What to do
One planet clearly highest	Go to that planet's chapter and follow it for 40 unbroken days
Two or three tied	Pick the one causing the most practical difficulty today. Only that one, for 40 days
Nearly everything ticked	Usually Saturn or a long unsettled stretch — start with Saturn and read the Sade Sati chapter

Never run remedies for more than two planets at once. Remedies work by depth, not by volume — one done properly beats nine abandoned by Thursday.
